

ICMS

Internal Component Mounting Solution

Mounts directly to bosses molded inside PCH series housing

Wireless friendly - does not impede performance of RFID devices, wiegand extenders or wireless data transmission devices

KEY FEATURES:

EASY MOUNT PLATE

PLATE aligns perfectly with the molded mounting bosses inside our housings. The mounting holes are pre-drilled – no measuring or guesswork.

USER FRIENDLY MOUNT

EASILY accommodates RFID and access control boards, card readers, and other low-voltage components. Easy to drill and use common hand tools.

TIME SAVING

SPEEDS UP INSTALLS by providing a ready-to-go mounting surface for all your components. Allows for pre-staging of components on backplate.

SECURE AND STABLE

KEEPS DEVICES FIRMLY IN PLACE, reducing vibration and wear over time.

CLEANER SETUP

ORGANIZES COMPONENTS for a professional, user-friendly layout inside the housing.

DURABLE DESIGN

MADE FROM HDPE to maintain structural integrity along with being wireless friendly.

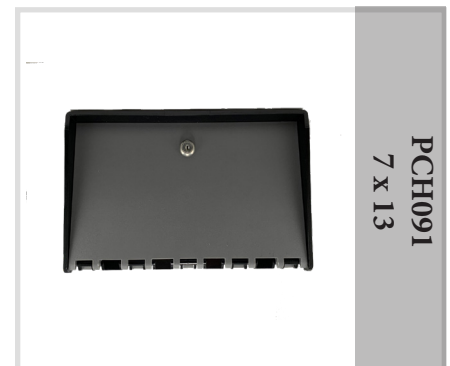

KIT INCLUDES:

Self-tapping hex washer head screws (#6 x1/2 inch) with backplate.

DESIGNED FOR USE WITH:

PCH049
7 x 7

PCH091
7 x 13

PCH196
14 x 14
